DISCLAIMER

Promigas S.A., E. S. P. ("Promigas") is a Colombian securities issuer listed in the National Registry of Securities and Issuers. As such, it is required to comply with applicable Colombian securities regulations. It has additionally made commitments as an issuer with IR recognition from BVC, and has adopted high standards of corporate governance, risk management and criteria to identify, manage and disclose conflicts of interest, which also apply to its related companies.

Promigas is primarily governed by Law 142/1994, which establishes the Regime for Household Utility Services; CREG Resolution 071/1999, which establishes the Unified Transmission Regulation of Natural Gas (RUT, for the Spanish original) in Colombia, including their amendments; regulations of the sector; current concession contracts; the company bylaws and other provisions contained in the Code of Commerce.

The Separate Financial Statements have been prepared in accordance with Colombia's Generally Accepted Accounting and Financial Reporting Standards (NCIF, for the Spanish original), as set out in Law 1314/2009, regulated by Single Regulatory Decree 2420/2015, and as amended by Decrees 2496/2015, 2131/2016, 2170/2017, 2483/2018, 2270/2019, 1432/2020 and 938/2021. The applicable NCIF's in 2021 are based on the International Financial Reporting Standards (IFRS), including their interpretations, issued by the International Accounting Standards Board (IASB). The underlying standards are the Spanish translations officially issued by the IASB in the second half of 2020. The Company used the option allowed by Decree 1311/October 20, 2021, of recognizing the change in deferred income tax arising from the increase in the income tax rate established in Social Investment Law 2155 in retained earnings under equity, and only for the 2021 period.

These Separate Financial Statements were prepared in compliance with the legal provisions that apply to the Company as an independent legal entity, and they do not include the adjustments and eliminations required for the presentation of the consolidated financial position and the consolidated comprehensive income of the Company and its subsidiaries. Consequently, the Separate Financial Statements must be read in combination with the Consolidated Financial Statements of Promigas S.A. E.S.P. and its subsidiaries. For legal effects in Colombia, the main financial statements are the Separate Financial Statements.

This report may include forward-looking statements. In some cases, such forward-looking statements will be indicated by using terms such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue," or their antonyms, and comparable terms. The results may differ materially from those included in this report due to changes in the current circumstances in general, in the economic and business conditions, in the interest and exchange rates, and other risks described from time to time in our filings with the National Registry of Securities and Issuers.

The users of this document are responsible for the assessment and use of the information provided herein. The matters described in this presentation and our understanding thereof may change substantially and materially over time; however, we expressly declare that we will not be under any obligation to revise, update or correct the information provided in this report, including the forward-looking statements, and we do not intend to provide any updates on such material events before the next results report.

The contents and figures of this document are intended to provide a summary of the topics described, rather than a detailed description.

RELEVANT FIGURES

Consolidated Financial Results - Summary

Loyal to our budget discipline, we use Zero Base methodology for the preparation of the annual budget -which eliminates aspects inherent to previous periods and obligates us to justify expenses based on the added value- so that the estimates reflect the result of our activities, which as of June 2023 were higher than budgeted, demonstrating that we always tend towards responsible and sustainable growth.

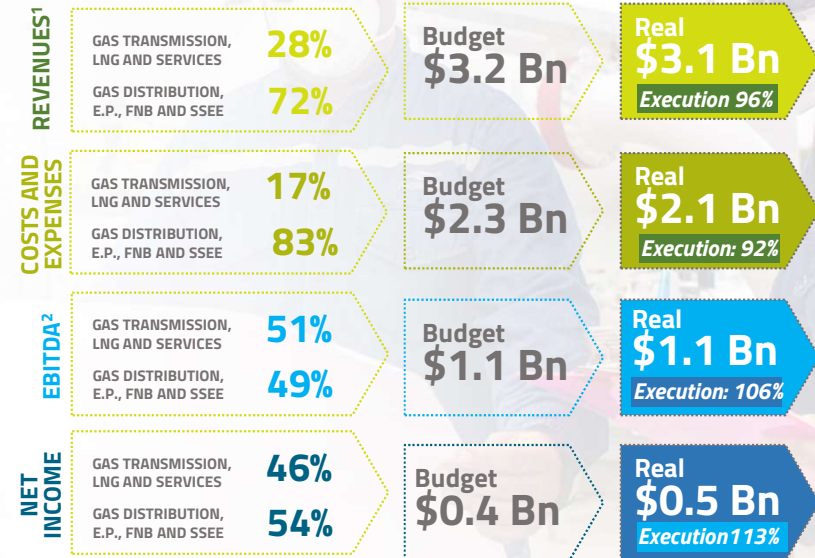

CONSOLIDATED

Q2 2023

CONSOLIDATED

Year-to-Date June 2023

- ⊕ The under-execution of income is mainly due to the fact that the budget expected El Niño phenomenon to start earlier and at a higher intensity, generating income from the dispatch of the thermal plants on the Atlantic Coast and the WACC.
- ⊕ Strict control of our AOM costs and expenses has allowed us to achieve a higher EBITDA despite lower income.
- ⊕ As a consequence of the above, our net income significantly exceeds what was expected for the analyzed periods.

¹Income from ordinary activities (COP 1.4 billion) + Income from national concession construction contracts (COP 24,810 million) + Income from foreign concession construction contracts (COP 64,444 million)

²Income from ordinary activities (COP 1.5 billion) - cost of sales (COP 1,016,921 million) - selling and administrative expenses (COP 140,841 million) + depreciation, amortization, provisions and impairment (COP 91,158 million) + share in income of associates (COP 79,906 million) + other, net (COP 76,812 million) + dividends received (-COP 0.6 million) - impairment on losses from credit activities (COP 21,011 million).

¹Income from ordinary activities (COP 2.9 billion) + Income from national concession construction contracts (COP 50,155 million) + Income from foreign concession construction contracts (COP 152,174 million).

²Income from ordinary activities (COP 3.1 billion) - cost of sales (COP 2.05 billion) - selling and administrative expenses (COP 261,244 million) + depreciation, amortization, provisions and impairment (COP 183,599 million) + share in income of associates (COP 155,054 million) + other, net (COP 77,476 million) + dividends received (COP 1,198 million) + share in income of associates (COP 155,054 million) - impairment on losses from credit activities (COP 42,357 million).

DISCIPLINE AND OPERATIONAL EXCELLENCE

- ✦ Decrease in corporate transportation losses → strategies implemented in the NTS aimed at reducing the uncertainty of measurements.
- ✦ **100%** Business continuity index
- ✦ **-35% LTIFR** vs. Q2 2022
- ✦ Emergency TGI → **minimization of the impact** on essential demand associated with TSO. Moreover, GdO carried out different actions along with TGI to **maintain the provision of service to the population.**
- ✦ **1,103.4 KM inspected** (exec. 62%)
ILI Project Troncal Gas Pipeline
- ✦ Collaboration between Promigas, Surtigas and IBM, to develop the **first fraud identification prototype.**

PREPARING FOR EL NIÑO PHENOMENON

Promigas' natural gas transmission infrastructure, strengthened by SPEC and the recently implemented early entry of bidirectionality, ensures the security of the country's energy matrix in light of the imminent arrival of El Niño phenomenon. We are prepared to meet the needs of thermal generators and natural gas demand peaks that may arise due to the situation.

WE ARE PREPARED TO PROVIDE SUPPORT FOR POWER GENERATION DURING THE NEXT DROUGHT PERIOD

+ **5** methane tankers with **160,000 m³** of LNG received at the end of the second quarter.

+ Hydroelectric plants have increased their water reserves by restricting the use of water, giving thermal generation greater participation.

+ **168.7 MMCFD** of thermal volume achieved during June 2023 (42% above budget).

+ A volume of **235 MMCFD** was recorded on June 24, the highest peak in volume of the year.

El Niño phenomenon has been forecasted, with a 96% probability of occurring during the second half of the year. IDEAM expects it to be a moderate to strong phenomenon, with a duration of between 8 and 14 months.

STRATEGY TO INCREASE COMPETITIVENESS

The main objective of this effort is to promote competitiveness despite the uncertainty.

INCREASING THE PRODUCTIVITY OF CORE BUSINESSES

- ✦ Increasing business productivity by transitioning to world-class practices.
- ✦ Preparing regulated businesses for scenarios of increased cost pressure.

DRIVING COMPETITIVENESS WITH AN EFFECTIVE CORPORATE AND CSCs

- ✦ It drives efficient and quick corporate management that empowers businesses and maximizes capturing synergies.
- ✦ It ensures shared, efficient and quick services.

DRIVING SYNERGIES BETWEEN CORE BUSINESSES AND ENABLING GROWTH

- ✦ Maximizing the process of capturing cross-cutting opportunities and strengthening expertise in strategic issues.
- ✦ Securing competitive advantages to diversify the portfolio towards international, non-regulated business and new energies.

54 INITIATIVES

(28 categories)

STRATEGY TO INCREASE COMPETITIVENESS

We have changed the model of how we relate to our customers to a more integral approach, which allows us to present ourselves as a company that generates synergies among its business units and is focused on achieving greater energy efficiency for our customers and users. In this way, we offer systems and models for contracting integral products and services - natural gas and other energy products - aimed at reducing carbon footprints.

COMMERCIAL POLICY LAUNCH

The new commercial proposal was launched in June, beginning with Transmetano (Sebastopol-Medellín gas pipeline), which will offer a portfolio that provides a successful balance in terms of Energy Security, Sustainability and Equity to commerce and industry in the Department of Antioquia.

PRODUCERS ARE INCREASINGLY RELYING ON OUR SERVICES

In June, we closed the agreement to expand the compression capacity at Bonga & Mamey (Hocol) with an estimated start-up date of July 2024. This would bring our total compression capacity to 6,120 HP.

BARRANQUILLA - BALLENA EARLY BIDIRECTIONALITY

In June, the first transportation contract was signed with Termobarranquilla, within the framework of the coast - interior early bidirectionality, of 20 MMCFD, to meet the thermal demand of the interior of the country.

TUA RENOVATION

SPEC LNG signed the extension for an additional 5 years of the TUA (storage and regasification) contracts for 400 MMCFD, from Dec 2026 to Nov 2031. It will contribute to corporate growth and value generation of our services, since it implies guaranteed annual revenues of more than USD\$ 103 million, makes decarbonization projects viable and allows progress in capacity expansion projects in SPEC.

STRATEGY TO INCREASE COMPETITIVENESS

We have changed the model of how we relate to our customers to a more integral approach, which allows us to present ourselves as a company that generates synergies among its business units and is focused on achieving greater energy efficiency for our customers and users. In this way, we offer systems and models for contracting integral products and services - natural gas and other energy products - aimed at reducing carbon footprints.

COMMITTED TO BENEFITING MORE HOMES WITH NATURAL GAS SERVICE

- Gas distributors requested resources from the FECFGN* to provide service to 24,598 customers, benefiting more than 78,700 people.
- Surtigas, in agreement with the Governor's Office of Sucre, will expand the service to 15 communities, benefiting 5,300 families.
- Under the "con Punche Perú" program, infrastructure is being expanded to benefit close to 35,000 additional households.

BRILLA - CUSTOMIZED CREDIT LIMITS BASED ON ADVANCED ANALYTICS MODELS

Launch of new credit offers that will make it possible to deepen customers according to their ability to pay and recompose the portfolio into lower risk profiles. As of June 2023, 700,000 clients have qualified (50% of the Brilla Potential in Surtigas and GDO) and the risk originated with these models decreases by 54%.

BOOSTING SUSTAINABLE TRUCK MOBILITY THROUGH THE GASTRACK FUND

In August, the contract confirming the participation of gas companies in the Gastrack financing fund was definitively signed. This will encourage the acquisition of 12,500 NGV dedicated refueling vehicles in 10 years nationwide.

BOOSTING SUSTAINABLE MOBILITY BY IMPLEMENTING THE GREEN CORRIDOR IN PERU

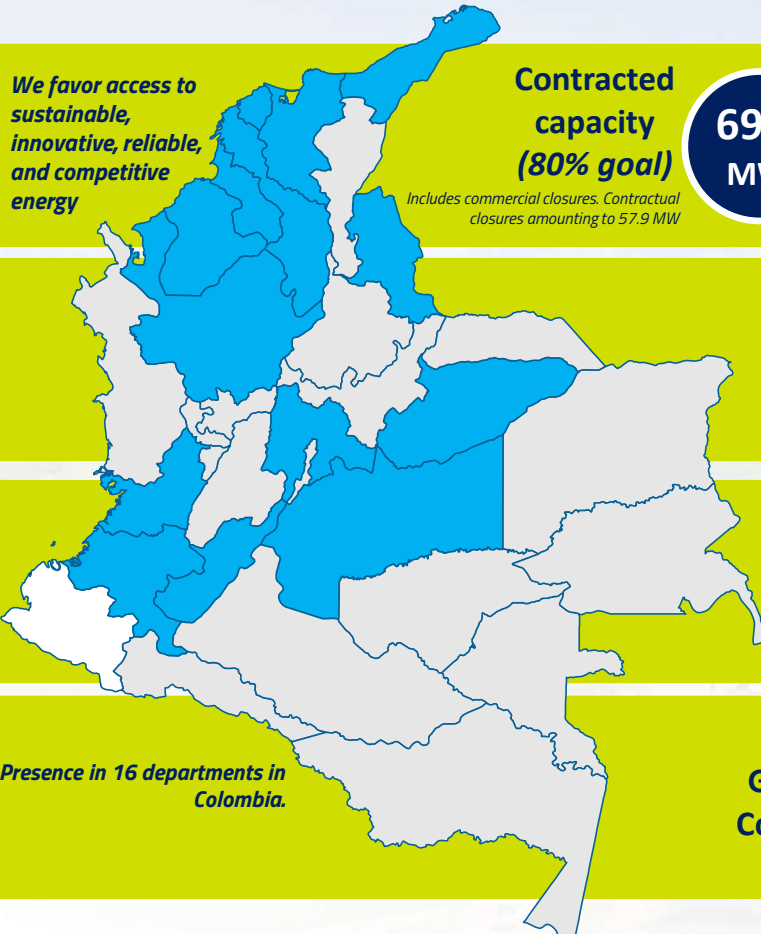

The Alto Moche Liquefied Natural Gas station was presented at the end of June, which will complete the green corridor along with the Chiclayo and Lima service stations, allowing the widespread use of LNG in the mobility sector. It will also contribute to the decarbonization of transportation in Peru.

*Fondo Especial Cuota de Fomento de Gas Natural (Special Quota Fund for the Promotion of Natural Gas)

STRATEGY TO INCREASE COMPETITIVENESS

As of June 2023, we have attained significant achievements on our path towards the energy transition. We continue working hard on our goals to expand and strengthen our product and service matrix.

We favor access to sustainable, innovative, reliable, and competitive energy

DECARBONIZATION ROADMAP

We are meeting the goals set out in our path towards decarbonization through a solid, structured and measurable plan to ratify our commitment to "Net Zero" by 2040 and to reducing emissions by 50% by 2028.

Baseline:

A1 and A2: 147,278 Ton CO₂ eq.

A3: O.Dedicated: 118,987 tCO₂eq

**tCO₂ e. abatement recorded subject to variations due to changing conditions and uncertainty in emission factors.*

- + 54% of the decarbonization initiatives started in 2023 (12 of the 22 initiatives in the program).
- + Categories of initiatives in execution in 2023:
 - Energy efficiency
 - Integrity of assets
 - Energy contract management
- + By Q2 2023, there was a n abatement of 3,904 tCO₂e, which was related to leak detection and control, energy supply management, TEA gas consumption and vent management.
- + Successful test, in collaboration with *Amazon Web Services (AWS)*, to implement a tool to calculate the business' carbon footprint.

FINANCIAL RESULTS BREAKDOWN

Loyal to our budget discipline, we use Zero Base methodology for the preparation of the annual budget -which eliminates aspects inherent to previous periods and obligates us to justify expenses based on the added value- so that the estimates reflect the result of our activities, which as of June 2023 were higher than budgeted, demonstrating that we always tend towards responsible and sustainable growth.

PROMIGAS PROFIT AND LOSS STATEMENT | Consolidated Q2 2023 – Q2 2022

Figures in COP

¹ Revenues from ordinary activities* + Revenues from national concession construction contracts.

² Revenues from ordinary activities - Cost of sales - Administrative and sales expenses + Depreciation, amortization, provisions and impairment + Share in the profits of subsidiaries + Share in the profits of associates + Others, net - Impairment in loss from credit activities.

*Revenues from ordinary activities from contracts with customers.

**Variation without revenues/costs for concession construction contracts.
